High-pressure storage solutions Stationary storage

Pressure level	Size	Cylinder type	Water volume	Total weight (Tare weight + H2 capacity) ⁽¹⁾	Number of sections
bar	ft		L	kg	
500	10	Type 4	8,400	5,000	1
	20		18,900	9,250	2
	30		29,400	15,000	3
	40		39,900	20,000	4
	45		45,150	22,500	5

Receptacles type approved as per PED/2014/68/EU.

According to PED (2014/68/EU) the pressure level refers to the maximum allowable pressure. A filling above this pressure is not permitted.

(1) Weight may vary depending on configuration
